

TRUE PROPHET

Enterprising Facts of Our Washington Correspondent.

SOME OF HIS GREAT "SCOOPS"

His Remarkable Career as Reporter, Editor, Correspondent and Explorer.

AN INSTINCTIVE AMERICAN

Among the passengers sailing from New York for Europe a few days ago was Mr. Walter Wellman, the well known newspaper correspondent, accompanied by his wife. Mr. Wellman was just before starting that he was not going to Europe for pleasure or rest. "If I were going to travel for pleasure, it should be in my own country," he said, "and, as for rest, I don't need it. I am going on business. One of the last times I was in Europe was the large number of Americans who put off to Europe every summer, spending their money among foreigners instead of with our own people. Why they do it is more than I can understand." Mr. Wellman and his wife had been in the United States, taking out of the country every \$100,000 to \$200,000. He had not only been in the United States, but he had been in the United States, taking out of the country every \$100,000 to \$200,000. He had not only been in the United States, but he had been in the United States, taking out of the country every \$100,000 to \$200,000.

His Influence With the President.

Mr. Wellman talks like the true American. He is a newspaper correspondent, with which our readers are familiar, and always breathes the spirit of Americanism. Mr. Wellman has been noted among the public men at Washington for his advocacy of what might be called the American expansion policy. Now that the great west is settled, he believes this country should broaden its field, always within American limits. He has advocated a colonial policy—an all American colonial policy—with annexation of Hawaii and Cuba, and for him to fail.

In the campaign last year Mr. Wellman held all the favorable states and the Rocky mountains and analyzed the situation in a way which attracted the attention of the world. He forecast of the result of the election in these states was remarkably accurate. He forecast of the result of the election in these states was remarkably accurate.

Mr. Wellman has been noted among the public men at Washington for his advocacy of what might be called the American expansion policy. TROUBLE FEARED

Crisis Approaching in the Great Miners' Strike.

VIEWS FROM HEADQUARTERS

Striking Miners Marching on the Mines That Are Now Working.

AID COMING FROM CHICAGO

PITTSBURGH, July 19.—The events of the past 24 hours in the Pittsburgh coal mining district indicate that there is trouble ahead. The strike has been on for two weeks with no cause for alarm in any quarter, but the paucity of hunger for coal has been a serious matter. A sensational interview with the late President McKinley, however, has been a serious matter. A sensational interview with the late President McKinley, however, has been a serious matter.

THE NORTH POLE

The Goal of Prof. Andree and His Big Balloon.

A VENTURESOME BALLOONATIC

Jogging Along Northward at the Rate of Twenty Miles an Hour.

ANOTHER NEWS FOUNTAIN

THOMSON, Island of Tromsø, Spitzbergen, Norway, July 17.—The steamer "Fram," which has arrived here from Spitzbergen, reports that Herr Andree, the aeronaut, succeeded in his balloon on Sunday afternoon, at 2:30. The ascent was made under favorable circumstances; the wind was good, and all was well.

As the wind conditions were more favorable on Sunday morning than they had been previously, the order was given that the start should be made as quickly as possible. The preparation occupied three and one-half hours. The balloon, which was christened "Fram," was inflated with hydrogen, and the shouts and cheers of the crowd which had gathered to witness its departure. Despite the lightness of the wind the balloon rose rapidly, until an altitude of about 600 feet had been attained, when it was forced down nearly to the surface of the sea. After a few moments it again ascended. The weather was calm, and the balloon was able, for an hour, traveling in a north-northeasterly direction. When last seen it was moving at the rate of 20 miles an hour.

The balloon in which Andree is attempting to penetrate the Arctic regions is constructed with a reservoir of gas, which can be inflated with hydrogen, or, as a last resort, with coal gas. It is capable of staying aloft for 30 days, and having a capacity of 5,000 cubic feet, and a lifting power of 1,000 pounds.

The balloon will carry three persons and provisions for four months, besides scientific instruments and Benton's camera. It is provided with a sail and a motor, and is capable of being steered.

This apparatus has often been used by Herr Andree, enabling him to sail at will across the Arctic sea, and to determine the direction of the wind. The sailing speed of 17 degrees to 40 degrees from the surface, and it is expected that this altitude will enable him to reach the North Pole.

The balloon was taken to Spitzbergen in June and inflated in a temporary structure, erected there. Hydrogen gas was used for inflating the balloon for this purpose. Andree's house was built on Cape Thorsen on a clear day, and the balloon was inflated in the afternoon. The wind was from the south, and with an average speed of 16 miles an hour, which, it is expected, will enable him to reach the North Pole.

No body has failed the old bug Democrats, but still they keep up the war.

If there is any undue excitement around these leads are respectable.

The people want to get make so many parties and so many conventions.

The Louisville convention amounted to nothing, except to allow some politicians to give themselves a free airing.

This is the period of "cheap, yellow-back" literature it is quite a treat to have the money they are not given time to read.

The best thing for the farmer and every other man who wishes to prosper is not to muddle too much in politics.

The gold bug crowd, though, not longer than a week ago had to have a blow out in a convention in Louisville, and wester their complaints all over the country.

No body has failed the old bug Democrats, but still they keep up the war.

A delegation of K. P. from Troy, Tall City, Cannelton and Harbinger were in town last night for a place next week.

They were given a hearty welcome by the K. P. of this city.

The new road to the Tar Springs and Pigeah went through the County Court today in a report. R. N. Hudson, J. A. Barry and Chas. Riedel will begin the survey to-morrow locating and staking it off.

Fire at Irvington last Friday night destroyed the McGlothlin Hotel and William's store house and contents. We understand the Hotel was insured for \$1,000 and Vittoe had about \$800 in his store and contents. The origin of the fire is not known.

If you wish to get along in this world observe the following: Drink less, breathe more; eat less, chew more; ride less, walk more; clothe less, bathe more; worry less, work more; waste less, give more; write less, read more; preach less, practice more; talk less, think more and above all pay your debts.

Two communications on the subject of good roads came in this week too late to appear in the News. The first was a next week. In the mean time let us hear from more people on this all important subject. If you are opposed to good roads put in your objections. If you are for them say so and give your reasons.

It is an evident fact that advertising does pay. On the contrary you'll hear some of the "Tenderloin" editors say that he doesn't believe in it, but you let something take place that he is involved personally. That gentleman will come to the newspaper man in a pique with him who reached out ready to embrace him with all kinds of pleadings not to make mention of the happening. Doesn't this prove that it is not a fallacy?

Harbinger was chuck full of people yesterday and the principle attraction was the second session of Circuit Court and the Cycle Club meet. The attendance was beyond all expectations. In the forenoon it began to rain, and every indication was favorable to the race being declared off, but it ceased raining in time and the track got in good condition for the race. That great old mechanic hand from Tall City drilled the spectators with their thrilling music. Several races were scheduled to take place. Horses were carried off by Harbinger, Cannelton and Louisville firms. The presence of so many pretty feminine faces made the meet a most pleasant event. A goodly number of families seemed to trip their trilly feet in the Court house.

(Wife)—(Husband) You deceived me when you married me.

Husband—I did more than that. I deceived myself.

Atlantic City, Tenn., \$15.20.

July 29 and Aug. 10 via the I. H. & St. Ry. For further information address H. C. Menzies, A. G. P. A., Louisville, or call on W. O. Allen, agent, Cloverport, Ky.

GLENDEANE.

I have just about one-half car load of Mason's fruit jars, will close them out at 50c. for a quota complete per dozen, 75c. for one-half gallons complete per dozen.

Respectfully, JULIAN H. BROWN.

Purely Personal

Frank Boyd was here Sunday.

Walter S. Smart went to Owensboro Sunday.

Wm. Victor Dwyer went to Louisville Sunday.

George Baker, opera, went to Louisville Sunday.

H. L. Stader spent Sunday with his father at Wolf Point.

Mrs. Virginia Ryan, of Louisville, was in the city last night.

Mrs. R. T. Palk and children have returned from the country.

Emma Vail and W. G. Smart returned from Louisville Sunday.

Miss Clara Morlock, of Louisville, spent several hours in the city Sunday.

James Dean, of Glendean, spent several hours in the city Sunday.

Miss Flora Ross, of Louisville, is with her mother, Mrs. T. C. Vossy.

Miss Jennie Kyles, of Pateville, is the guest of Miss Lila Nicholas.

Miss Beula May has returned home after an extended visit at Webster.

V. G. Rabarge and son, Wallace, of Harbinger, spent Friday in the city.

Wm. J. Rabarge, of Harbinger, spent Sunday with Mr. and Mrs. A. R. Fisher.

Miss Annie Dwyer, of Brandenburg, is the guest of Mrs. Annie Gregory.

John T. Dittie, of Louisville, is with his sister, Mrs. J. D. Dabke.

J. W. Bates and family, of Louisville, are at Tar Springs for a outing of two or three days.

Mrs. Tom B. Chandler, of Louisville, is visiting with Miss Elizabeth Hall at Webster, this week.

Mrs. Sherman Hall and Miss Lila Miller, of Harbinger, were the guests of Miss Lila Miller Sunday.

Miss Annie Kasey, Miss Daisy and Lila Orlit have returned home after a visit at Webster.

Miss Mollie Clarkson, Myrtle Moore, Lillian Barnard and Mr. Jim Moore, former a party that went to Louisville last Saturday and were the guests of Misses Nannie and Katie Ross.

To Carry A Cold in One Day.

Take Laxative Broom Quinine Tablets. All Druggists return the money if it fails to cure. 25c. For Sale by R. A. Shelton, Stephentown, Ky.

REPUBLICANS

In Mass Convention Name Delegates to State And District Conventions.

"HANNA" MILLER GETS IN HIS WORK.

Miller and Burton Have a Lively Tussle Over Instructions.

THE DELEGATES GO FREE.

A Republican Mass Convention met at Harbinger last Sunday.

It was made up mostly of politicians, office seekers and their friends. There were a few Democrats scattered over the hall as interesting spectators. There were about 75 present. The first meeting was a very quiet affair in the beginning, but the wind up developed some spirited passages at arms between the leaders headed upon the one side by "Mark Hanna" Miller and upon the other by his Majesty the Honorable Victim Basterfield Burton.

After the organization had been completed with the Hon. Charles Basterfield as chairman and "Squire" Bion Jolly as secretary, the business of the convention was taken up which was to name delegates to the State convention at Louisville and the Senatorial convention at Cloverport. This was done without a break and it appeared as though things would glide along without a rift to pass over its placid waters. But politics is nothing if it isn't livened up with a fight or two. We don't mean in this connection that there were pistols and clubs and fists flying around. Backstreet county politicians are not of that kind. They take their straight and play on words, these they throw around pretty lively, but they are tempered with good feeling and don't hurt. Basterfield was off into a corner and held a rump convention. We don't know if this is true or not, but they do say that's what happened down there last Saturday.

Charles Basterfield, the local transfer, their fight to this county and were at Harbinger bright and early Monday morning telling their troubles to their good Republican neighbors, seeking an adjustment of their difficulties in their hands and this was what brought on the trouble.

The Hon. Mark Hanna Miller, as Burton does him, is not at Harbinger, he's in a political fight. He's not afraid to show his hand when the time comes it matters not who's against him, the more the merrier with Burton.

Burton was in favor of sending the delegates instructed. He wanted them to stand the vote of the county for his friend and co-worker Col. W. R. Stewart.

He made an eloquent appeal in behalf of his friend for these instructions. This raised the ire of Col. Burton who sat opposite him and listened to his plaintive appeal on behalf of his friend.

Col. Burton didn't like it. He didn't like the men who were continually warring within the party lines and fighting for the offices. Therefore he opposed the instructions as offered by his friend.

"Mark Hanna" Miller. He was in favor, he said, of naming a new man entirely, one who was a better man than either Col. Stewart or Col. Haverling. He proposed the name of Amos Freeman a good stable, peaceable Republican, of Hancock county. He said he felt like speaking these fellows and sending them home until they could come to a decision in the right way and he gave them a gentle word thrashing.

Of course this didn't suit "Mark Hanna" and he came back at Col. Vasterfield and made it hot for that gentleman. After Miller and Burton got through with their little set, Jesse Keckridge came in as a peace maker and presented the name of Col. R. M. Jolly. Jolly asked the convention to instruct its delegates to cast the vote of the county for one of its own sons than whom, he said no better material existed for senatorial honors. Breckinridge county, he said was entitled to the nomination and he was in favor of giving it to one of her noble sons Col. R. M. Jolly.

Mr. Miller was the first to intimate he had said that Mr. Jolly was a candidate, and he wanted to inform the gentleman that Mr. Jolly couldn't take his seat if elected. That he held on off one more and until he resigned that he was not eligible for this. He referred to his being postmaster.

Here the convention got into a row and made it hot for that gentleman. Coleman and Coleman had something to say and all seemed to have it in for Miller.

Finally a pacemaker appeared on the floor in the person of John P. Haverling, Jr., who offered an amendment that the delegates go uninstructed to Cloverport. Miller consulted with his friends after considerable debate and dropped in a line with Haverling's amendment which was carried by a vote of 31 to 12 none.

It was a pretty little fight all around, but it developed after the vote was taken that Miller could have carried the convention for his man if he had just pressed it.

The fight will be renewed here next Saturday before the district convention. It will be a pretty lively one too as all of Hancock county is worked up and the friends of both Stewart and Haverling are in a lather.

Delegates to Cloverport convention are as follows: Harbinger—Milton Cole, Coleman Haverling, James Basterfield and

Perfect Health.

Keep the system in perfect order by the occasional use of Turt's Liver Pills. They regulate the bowels and produce

A Vigorous Body.
